Please send all the project works on the following email id

chjiazoo@yahoo.com

PROJECT- Create a working Robotic model using waste material

SUBJECT: MATHS:-

Q1. In a city the circulation figures of some newspapers are given below:

Name of the Newspaper	Circulation (No. of newspapers)
The Daily News	75,00,750
The Morning Times	8,00,000
The Fast News	62,18,250
Eenadu	95,630
The Indian Times	12,00, 945

Observe the above data and answer the following questions

- Arrange the numbers in descending order.
- Name the newspaper which is the least circulated and maximum circulated.
- What is the place value of 2 in 12,00,945 ?
- Write the number names of circulation of each newspaper.
- What do you think about reading newspaper? Is it a good habit or just a waste of time?

Q2. Write your House No. in Roman numeral.

Q3. During Census 2011, it was recorded that the following number of literate boys and girls are there in the 5 states.

State	Boys	Girls
A	98,74,563	87,96,542
B	75,38,691	68,93,571
C	48,59,624	37,84,962
D	36,98,526	26,79,945
E	57,91,387	49,78,652

- Find the total number of literate boys in 5 states?
- Find the total number of literate girls in 5 states?
- How many more boys are literate in comparison to the girls in these states.

Q4. Some boats have motors and go further into the sea. These boats travel faster at the speed of about 20 km in one hour.

- How far would the motor boats go in 6 hours?
- How much time will they take to cover 100 km ?

Q5. Solve UNIT TEST Question Paper.

Activity:

1. Calculator Trick.

- Enter any number (It should be less than an eight-digit number)
- Double the number.
- Add 15 to that number.
- Triple the result.
- Add 33 to the total that you get.
- Divide the answer by 6.
- Subtract the original number from this. The answer will be 13
